Who can see your future posts?   Close

You can manage the privacy of things you share by using the audience selector right where you post. This control remembers your selection so future posts will be shared with the same audience unless you change it.

friends or Public?

Right now, Jack's updates are set to "Public." He can change this by clicking the dropdown menu. By leaving it "Public" anyone can view what he updates. By clicking "Friends," only people that he has friended can view his updates. There is also an option to make his posts visible to only him or to create a custom list of people that can view his updates.
